

**ROMA
PRIDE**

DOSTA!

Get over the prejudices, meet the Roma!

For the dignity of Roma in Europe: “Roma Pride!”

“Roma Pride!” is a campaign which manifests Equality and Dignity in Europe for the fourth time, organised with enthusiasm, at the same day in more than 15 countries.

This mobilisation is ingrained in the solidarity of million people across Europe who are involved in local or national, individual or collective initiatives against racism and discrimination. Roma pride is possible thanks to the citizen’s close attachment to human rights and the values of democracy across the continent.

Roma Pride has a goal to give hope to young people about the future and fight for their right to have the benefit of a good education, which will give them the opportunity to find their way, to shape their own life, without the suffocating restrictions imposed by racism.

Roma Pride is trying to help the European, national and local governments to get involved and promote active, stimulating and binding policies that will lead to the end of racial and social discrimination.

And finally, Roma Pride plans to be a joyful celebration of Roma identity and culture.

Let’s meet the Roma through Roma Pride, celebrate Roma culture, tradition and history with dignity!
